Re: Ohio English Initiative Contact Request

Date: January 16, 2019

Dear Provosts and Chief Academic Officers:

We are excited to begin working on the creation of the Ohio English Initiative, an initiative that will bring together English faculty from across the State of Ohio to discuss student success. This initiative, modeled off of the Ohio Mathematics Initiative, will begin forming in January 2019. To help us we are seeking your assistance in providing contacts at your institution who are interested in this work. You can provide contacts for your institution, for your English program chair/coordinator/director, your writing center director, and an additional contact you believe should be involved with this new state initiative. Responses received by **Thursday, January 31, 2019** are appreciated. Please use the link to submit your contacts.

Once all contacts are received we will work to take the next step on this initiative.

Questions regarding the Ohio English Initiative can be directed to me.

Sincerely,

Paula
